Job Posting: Full-Time Technical Sales and Support Engineer

As a leading provider of aerodynamic sensor technology in sport applications, our focus is on developing, designing and supporting superior products.

Are you a engineer or technical person who has a passion for sport cycling? Do you enjoy people, sales and teaching? Would you like to take on a lead technical role in product/technology demonstrations world-wide? If you said yes to any of these, AeroLab Technology would love to hear from you!

Responsibilities

We are looking for a full-time Technical Sales and Support Engineer who is interested in being part of a start-up company in a fast-paced environment in Calgary, AB. In this role, you will serve as the forward facing image of AeroLab Technology. You will support marketing ideas, demonstrations of product functionality, perform on-site experimental testing for clients, explain concepts in aerodynamics to non-expert customers, and provide technical support for all products.

- Support development of communication tools for customer learning
- Manage key events support of special projects with customer or partners.
- Develop sales channels and opportunities
- Perform on site testing for Engineers, Elite Coaches, Elite Fitters

Qualified candidates for this role will possess a Bachelor of Science from a four-year college or university, a cumulative minimum 3.0 GPA and a minimum of 2 years relevant experience.

Preferred Qualifications Include

- Engineering or kinesiology background (undergraduate)
- Competitive level cyclist or triathlete
- Demonstrated capability to learn engineering and mathematics concepts in a fast paced environment.

Starting base salary is expected to be commensurate with qualifications.
